MAUA BANK,
101-103 CALLE CANGALLO

The offices of this Bank having been removed to the above spacious building, in order to suit the increasing dow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank :—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of checques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency, in which case forty-eight hours' previous notice is required to be given at the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England and France, as also on other places, of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 9 a.m. till 3 p.m.

MINERVA COLLEGE.

MADAME FARNESI

Has the honor to inform Parents and Guardians that she has now Opened the above College for Young Ladies upon the plan of the first European Colleges, and has spared neither trouble or expense to have over efficient French and English Governesses, and hopes, with the aid of Masters, to give such a finished education as to do away with the necessity of sending young Ladies to Europe.

Madame FARNESI takes this opportunity to thank her Friends for the kindness and patronage they have shown her, and for the satisfaction they have expressed for her past efforts, she begs to assure them that nothing will be spared in the future to render the education perfect in every respect.

The House is large and airy, with Bathrooms and every comfort and convenience. A Doctor visits the College once a week. Prayers are held daily in separate rooms for the Protestant and Catholic Children, and a minister of each religion visits the College once a week for examination.

The Course of Instruction comprises French, English, and Spanish in all their branches; Geography, Grammar, Sacred and General History; Composition, Literature, Writing, and Arithmetic; Plain and Fancy Work of all kinds.

The Rules are strict, but every kindness and attention is shown the Pupils.

Every Six Months there is a Public Examination, that Parents may judge of the progress made and the course of studies pursued.

The first Saturday in the Month is a Holiday; and it is earnestly requested that, when possible, Friends will only visit the Pupils on that day or Sunday, to prevent the studies being interrupted.

The only Language allowed to be spoken is French. The greatest attention is paid to their manners and deportment, that they may not only be well-educated, but have the refined and elegant manners of a Lady; and that, if necessary, on leaving the College, they may be able to take their place at the head of the house.

The Elder Pupils who desire it are taught Dressmaking and Housekeeping, without extra charge, a Governess being kept for that purpose.

The Young Ladies are never left alone Night or Day, a Governess sleeping in each Room.

EXTRAS.

German, Italian, Music, Singing, Drawing, and Dancing.

For further particulars, address Madame FARNESI, 51 TACUARI. 206,1m,a30

The Company insures against loss or Damage by Fire Private Dwelling-Houses, Goods Deposited in Specific Warehouses of Stone or Brick, &c., &c.; and also issues "Floating Policies," extending to the Custom-House and all or any of the Private and Bonded Stores.

The whole advantages which can possibly be contemplated by those desiring to effect Fire Insurances, may be resolved into the following:—

1st. Security.
2nd. Honor and liberality on the part of the Company, in whose hands they place their interest; and
3rd. The purchase of these advantages at a moderate rate.

It will be found that all these are presented by this Company to the Public in an eminent degree.

The Company's large Capital, under the immediate management of the Directors of this Establishment, affords perfect security to the Assured, while it may confidently assert, from the Constitution of the Board of Direction, from the character of its present Members, and from the qualifications which will be deemed indispensable in their successors, that the highest honor and liberality will ever characterize all its transactions.

It has been the object of the Directors, in their minor arrangements, to afford every possible facility to those effecting Assurances with the Alliance, and the undersigned hold a Power of Attorney enabling them to settle at once any Losses that may occur from Fire, Lightning, or Explosions of Gas in Buildings, on or in which this Company has granted Assurances.

From Sunday, 16th September, inclusive, the following alterations will be made in the Traffic: One third of the First Class Saloons will be converted into smoking apartments, with communication with the other part of the saloons. The cars hitherto used as Smoking Saloons will be used entirely for second class passengers. First class passengers will pay, as at present, five dollars, children from 3 to 10 years, three dollars; second class, three dollars, children two dollars. Return tickets, good for the day, will be given—first class eight dollars, children five dollars; second class five dollars, children three; also monthly tickets of first class for two hundred dollars.

Flag stations at Casa Amarilla and Barraca de Peña. Passengers wishing to alight there will give previous notice to the guard.

April 7.

There has been very little business doing to-day, although settlers have modified their quotations, and in most departments would now accept the prices which were current on Friday last.

The abatement of the excitement in the Cotton Market has had corresponding influence here.

Nevertheless, settlers are very firm, but occasionally some re-sales are offered at a slight reduction, and at prices lower than producers will accept.

THE SARSAPARILLA REVOLUTION.

ARRIVAL OF THE RIO NEGRO.

STIRRING NEWS, ALARM, &c.

Yesterday we were favored by some English gentlemen, who arrived from Mercedes, per Rio Negro, with a full, true, and complete version of the real state of things in the Banda Oriental.

Maximo Perry has marched to and arrived at Porongos with a force of from 1300 to 1500 men. All along his march he has swept the puesteros, the peones, and horses, but he respected every foreign estancia, taking nothing but the peones. As yet no blood has been shed. He took from Mercedes every mother's son, old, young, poor, and rich, and drafted them into an infantry regiment, composed of a gang of his own men, who have orders to cut the throats of any who attempt to desert. All the arms and ammunition, several cartloads, he took from Mercedes. He levied no contributions in the town. All the 'comisarios' and 'alcaldes' are gone with him, but most of them are very unwilling to join in this campaign.

On Friday General Caraballo, with Colonel Olave, arrived at Mercedes, with 450 men of the line. He reached the banks of the river at one o'clock in the night, and crossed over in the morning at nine o'clock, with his troops, and took peaceable possession of the town. The troops encamped in the suburbs.

The parties who gave horses to Caraballo, at Fray Bentos, received them back the following day. The Government has a force of about 500 men at the Arroyo San Estevan.

THE PETTICOAT CAMPAIGN.

Lieutenant-Colonel Margaret Ferreira and Captain Anita Gill are the female officers in command at the pass of the river Tebicuari, where a very respectable force of girls and women is held under arms to dispute the passage of the river by the Allies. This is the tenor of the advices that last came down from Paraguay, and every well-informed person in military matters knows that they are correct.

Brigadier-General Eliza Lynch, with the main body of the female army is encamped midway between the pass of the river and a small inland town. On the road to Villa Rica the right wing of her army, under the command of the mother of Captain Herrero, has deployed slightly to the left so as to hang on the invaders should they effect a crossing of the river, and cut up Mrs. Colonel Margaret Ferreira and her heroic girls. Relays of girls and women keep constantly arriving at the headquarters of the feminine Commander-in-Chief.

From what we gather from letters and statements it would seem that the male portion of the Paraguayan army is very reduced, and are occupied in defending the fortress of Humaita, the positions near Timbo, the encampment at Villa Rica, and the fortification at Lambare. The guerilla portion of the campaign—or what is termed here the 'guerra de recursos'—is entrusted to the women of Paraguay; and reliable data have been received that the troops to the north, near the Tranquera Loreto are exclusively composed of women.

Melancholy, indeed, is it to think that in this, the nineteenth century, a country should be driven to such straits, a race of human beings so hounded down that the women must be torn from their homes to fill the exhausted ranks of a worn-out army. But let it not be supposed that there is any exaggeration in the foregoing news; every newspaper in Buenos Ayres has already published the glaring and awful fact that Lopez had commenced recruiting women! The only difference is that we give the news more in detail, having at our command superior information from the foreigners up the river. As to the exact number of the women under arms in Paraguay at present it is impossible to say, owing to the varied and conflicting statements; but for years past a great portion of the heavy work attending on camp life has been performed by the unfortunate daughters of that once lovely country! Even in the trenches around Humaita the weak arm of woman has shovelled out the earth to make a grave for the Allied invaders! female chasques have gone from point to point over the country with despatches; the steamers and vessels in the port of Asuncion have been alternately discharged and laden by the trembling hands of the women in the capital. Everything of worth and value that these poor women possessed has been snatched from them to assist in the defence of their country! They have toiled in the field for the last three years; they have sowed, raised, and harvested the crops; they have made clothes for the soldiers from the fibres of plants; they have maintained the hospitals, cared the wounded and sick; they have supplied the army—and now, with Satanic power, they are dragged to the front, and placed in the breach to fight the whole Allied army!

It may be obedience, it may be enthusiasm or it may be patriotism which drags the whole female population of Paraguay with muskets and sabres on the hill tops and in the valleys to fight the invading army but we would dispair indeed, for the cause of humanity did we doubt for one moment that the unconquered Paraguayan heroines lacked the unequivocal sympathies of the people of this country.

If the new phase which this campaign has taken, affords food for satire and has assumed the ridiculous, if the grinding despotism of Lopez in forcing the unfortunate Paraguayan women from their homes to defend a cause more personal than national, calls for the imprecations of a civilised world, so also the heroism of this hounded-down and unconquered people stands forth in grand sublimity and attracts an admiration which sheds a halo round their cause.

History affords us many instances of very brave female warriors, but the world must be gone over again before we can find a single instance of a heathen or christian army of women marched out in battle array to fight an army of men soldiers. We doubt even if in the interminable and unrecorded wars of the niggers, in the unexplored fastnesses of Africa, such an inhuman system of warfare was ever known.

The great error, now, which the allies committed in allowing Lopez to escape from Humaita, is palpable. The power of this man over his people was never properly estimated by the allies; in his sending women to fight in the front and withdrawing his men into the interior of the country, he has placed the allied army in a predicament far more serious than if he had defeated Caxias in a pitched battle.

We for our part demand of the foreign Ministers to send commissioners up to Paraguay to investigate the real position of affairs and report thereon. If as the news goes the allies in attempting to cross the Tebicuari have to fight the girls then the honor of Europe is at stake in at once stopping this horrible war, the allies themselves must see the utter impossibility of carrying on hostilities upon such terms; supposing that it were possible the allied army could afford a regiment or a division so mercenary and so base as to fight against the poor Paraguayan women, and if in the battle the allies were so unfortunate as to win the day, not all the wealth of Matto Grosso, not all the trophies of Paraguay would recompense for the tarnished honour of such an ill-starred victory.

If the war is to be carried on under such circumstances, if the allies must fight the women of Paraguay to carry out the tenets of the triple alliance, then at least let it be on equal terms, let woman be ranked against woman and man against man. South America is a strange landwhere such eventualities come to pass, and when the women have fought it out on their own line and the men alsofought it outon theirs, then let us take to the children, send for General Tom Thumb and his wife, and thus bring to a felicitous conclusion this celebrated and never-to-be-forgotten Triple Alliance War.

All the saladeros along the river are stopped, owing to the peones having been taken up.

The river Uruguay is falling fast, and several English vessels are at anchor loading hides.

There is no one leaving Entre Rios for the revolution, but, on the contrary, hundreds are flying the Banda Oriental, and seeking safety in Entre Rios.

IMPORTANT FROM ROSARIO.

CABAL'S NEW WHARF.

CALIFORNIAN COLONY.

STEAM PLOUGH TRIAL.

May 7, 1868.

My letters are few and far between, something like your famed correspondent, 'Sinbad,' and probably for the same reason, the dearth of news, and the necessity of making up a letter with thrice-told tales. However, I have something of an advantage over the veteran chronicler of the Paraguayan war; I have always a variety of subjects to cull from, while he has only the circumscribed limits of a camp, where, if the belligerents insist on a life of inactivity, it is requisite for a correspondent to have the genius of a Baron Munchausen to find materials for a letter.

Our province is quiet; so quiet, that one can hardly believe we have passed through such a noisy and useless crisis. I say useless, for all cataclisms are prejudicial to the welfare of a country, and much more so when they are merely for the purpose of overturning one party to put up another.

Consequent on restored tranquillity, the commercial world is again in activity. The wholesale houses are doing a fair business, and the retailers do not complain. Building is going on with great spirit, and we now have fine houses and handsome stores on lands that three years ago were considered sheep estancias. The town is moving up the river, in the direction of the railroad; there are few improvements, comparatively, in the southern extremity. When this young giant of Rosario gets its full growth, we shall have San Lorenzo, and its grand ecclesiastical buildings, as one of its suburbs.

Mr. Cabal's despatching wharf is one of the great improvements: I have already mentioned it. A tunnel is run from the river side, right into the great yard of the Barraca, and merchandise is let down or raised through a spacious shaft. At this wharf, a large vessel can lie alongside, and load or unload in four or five days. It is a great benefit to the town. For the present a slide is used that carries a bale of hay, or a bale of wool, from the top of the barranca into the ship's hold. This is easily done at this spot, as the deep water washes the foot of the cliffs. The whole extent of the railroad station possesses the same advantage, and merchandise can be hoisted or lowered by steam cranes into the vessels. The locality selected for the new Custom-houses is also on the top of this barranca, and the unloading and discharging will be done in same way. The present port is in front of a large space of made land, and the high banks are from one to two squares from the edge of the water, according to the height of the river. Here the facilities of landing are not so easy. There are three slips into which good sized vessels can enter and discharge or load from the shore, that is when the river is as high as it is at present; but the steamers and larger vessels have to anchor in the stream, and only have access to the shore by means of boats and launches. All difficulties might be obviated by the construction of about eight hundred feet of floating wharves; and I hope it will not be long before some enterprising person will make the proposition to the Government. It would be a paying speculation.

I have received letters from various persons living in California asking for information in reference to various subjects. The questions generally demonstrate a vast deal of ignorance of the States of South America; and show the absolute necessity of steps being taken to enlighten the people in foreign countries as to the real state of this Republic. Even to this day the United States spend a million of dollars annually in paying agents, printing pamphlets and advertisements, &c., giving every description of data that may be useful to the emigrant. By this means the German, Englishman, or Irishman know exactly what they are to expect—they are acquainted with every thing that interests them before leaving their own country. Here the Governments have done little or nothing in this sense; and to this day there is as little general knowledge existing in Europe and the United States of the Rio de la Plata as of the interior of Japan. One of the questions asked me by an intelligent man, a physician, is—if the waters of the Republic are generally potable. In all the correspondence the same questions are asked, that is, if the Government is permanent, and if there are schools where the children can be educated.

What surprises me is how it is that Mr. Sarmiento should have been so long in Washington, and has done nothing towards dissipating the fearful ignorance that exists in that country in reference to the Argentine Republic. One good step has been taken in naming an immigration agent in Paris. I think his name is D. Calisto Boyer, and he appears to be an energetic and intelligent man. But an agent must have command of funds to enable him to advertise extensively, and circulate by thousands and hundreds of thousands little sheets or pamphlets. I see that the agent in Switzerland, Mr. Beck, has just published a little pamphlet in German on the Argentine Republic, and to which is attached my little map of this Province, lithographed in German. Mr. Beck is a very intelligent and useful man, but I fear that his sphere of utility is cramped for the want of funds.

Mr. Melrose has announced that the trial of his steam ploughing machines will take place on next Tuesday, and invites the people of Rosario to attend. The manager of the railroad, Mr. Ogilvie, has generously, and very properly, offered to the public tickets for the trip at half the usual price. I expect a large concourse of people on this most interesting and important occasion. If it be possible I will also attend, in order to give your readers a good idea of the working of these machines, which, if successful, in an economical point of view, will open a new era for agriculture in this country. A Mr. Mendoza of this city has already ordered a similar machine from England, without waiting to see the trial of that of Mr. Melrose.

The excavations for the station-house in Rosario are progressing rapidly. There is an enormous quantity of earth to be removed before the buildings can be commenced. Numerous gangs of men are employed, and two locomotive engines are in continual occupation. The great brickmaking machine is set up; it is a most ponderous affair, and is worked by a powerful engine. It will soon be ready for work. The station itself will be a very handsome building, with a clock-tower. The clock, one of Dent's best, is ready for shipment in London. It will have four faces, and can be lit by gas, like the one in your Cabildo.

It is useless writing about election probabilities. In Buenos Ayres you generally more about the politics of the Provinces than we do here. The general impression here is that Urquiza has been working for himself from the beginning, and that he has not declared openly, because he desired to liberate himself from newspaper attacks, by saying nothing about his own candidature, and allowing each of the two great parties to believe that he might be brought over in their favor. As far as the outside phase of the elections goes, you will see that I was pretty near the mark when I gave you the probabilities some two months ago. All the Provinces that I mentioned, as pretty sure for Sarmiento, have given him their vote; but what the electors will do on the supreme day nobody knows.

Within the last month some three hundred immigrants have arrived at Rosario. They are brought up free of charge by Mr. Arteaga's steamers, and readily find employment. The better part of them are employed on the railroad works.

The river has fallen at this point about 2½ feet from its highest points.

Two barques just arrived for the railroad.

Yours truly,

W. P.

THE LADIES OF BUENOS AYRES.

While in the tropical plains of Paraguay the softer sex, throwing away the distaff and discarding their crinolines, buckle on, with patriotic ardor, the sword in defence of their homes—our fair ones here are engaged in work more consonant to woman's heavenly mission, of alleviating human misery and suffering. As we have already informed our readers, a Grand Bazaar is to be held on the 18th of July to raise funds for the Asociacion Filantropica, whose coffers are sadly in want of replenishing. The principal ladies of our native fashionable society have readily come forward and tendered their valuable co-operation, and the following distribution has been made:—

1st Stall—Dña. Carmen N. de Avellaneda and Dña. Ernestina B. de Mot.

2nd Stall—Dña. M. Antonia M. de Huergo and Miss Luisa Frias.

3rd Stall—Dña. Virginia A. de Tomkinson and Dña. Josefa F. de Martinez de Hoz.

4th Stall—Dña Irene M. de Varela and Dña Rosa D. de Gonzalez.

5th Stall—Dña. Clotilde B. de Monjan and Dña. Belen C. de Martinez de Hoz.

Garden—Dña. Adela R. de Arteaga and Dña. Carmen S. de Zimmermann.

Confiteria—Dña Isabel A. de Elortondo and Dña. Julieta G. de Oliveira.

Philharmonic Commission—Doña Amalia G. de Tarnassi, Dña. Olivia P. de Rossi; Messrs. Antonio Tarnassi, M. Gomez de Oliveria, Angel Ferrari.

Supplementaries — Messrs. Delfin Huergo, Carlos de Mot, Juan Camaña, Victor Belaustegui, and Emilio Landois.

It is not yet known where the Bazaar is to be held. Application has been made for the Colon Saloons, and it is not likely that the Masonic Lodge that has control of them will refuse their consent.

EDITOR'S TABLE.

Fighting with women seems at last to be the order of the day. Yesterday fresh advices from Paraguay were received; the place called Timbo or Timbuctoo has been attacked and taken by the Brazilians, who fought with the most dauntless courage and charged up to the very battery under a galling fire. The number of killed and wounded is not given. Many of the Paraguayan soldiers jumped into the river and escaped to the opposite shore, where they were cheered and welcomed by their "Sisters" in arms. The position taken by the Brazilians is one of decided importance; the wires which held a small chain across the river have been cut, and as far as we can judge from the position of the allies, the investment of Humaita is now complete. Lopez by all accounts continues recruiting the women, who are represented as fired with the greatest patriotism and determined to shed the last drop of their blood in fighting the allies. The *Semanario*, which is the Paraguayan organ, we hear is full of the new women regiments forming, and the number of volunteer girls flocking to Mrs. Captain Herrera's standard who is drilling the girls at a barrack close to Asuncion called the Hospital. The allies are making drains in one part of the lines which will draw off the water in the ditches at the weak side of Humaita, and the telegraph wires in the Chaco put up by Lopez have been cut down by the allies. It is rumoured as probable that land communications between Timbo and Cerrito will be established shortly, and by this means the ironclads above Humaita will be supplied with fuel and ammunition.

The steamer Rio Negro arrived yesterday crowded with passengers. The banks of the Uruguay seem to be very hot quarters for even Argentines at present. We publish in another column the real news about Perry and his revolution. All the saladeros are brought to a stand still owing to the clean sweep made of the peones.

The fares for Rosario we note have been reduced. Our friend Captain Davis called on us yesterday to say that he starts this morning and takes passengers up for the reduced fare of twelve patacons. The Rosario trade has increased and is increasing. Rosario with all its revolutionary drawbacks is going a-head amazingly.

The collision between the steamers Parana and General Flores the other day was a most serious affair. It appears had the General Flores been an iron vessel she would have cut right through the Parana amidships; unhappily some lives we believe were lost by the accident. But navigation in the Parana or even in the Plate is a pitch and toss business, subservient to no code, and Congress will do nothing save impose new tariff duties, &c. Such a collision as the one in question should be inquired into by the Minister of Marine and remedies adopted so as to prevent a recurrence, but our Minister knows nothing of admiralty law, and of course relief is out of the question.

The people in Parana have so fixed an opinion on the future President, that they are getting up their town for the future capital; property has run up nearly as fast as the tax valuations in Buenos Ayres. The people refuse to rent or sell houses at any price until after the 12th June.

Our new colleague the *Patria* gives us a most complimentary salute yesterday, for which we return our best thanks. We are anxious to see what the Editor says about fighting the Paraguayan women regiments, the newspapers should speak out on such a horrible subject, there can be but one opinion on the matter, and the sooner that opinion is expressed the better We call the *Patria's* attention to the fact that when we announced the news that the Paraguay river was filled with torpedoes, all the papers ridiculed it, but it proved true. Again when we published the basis of the peace treaty, at the time of Mr Gould's visit, the public and press contradicted us, but our news proved true to the letter. Now, there are not wanting parties to deny that Lopez is recruiting women, but we insist that it is a fact, and recruiting by thousands; our information is from the very highest and best source, the *Tribuna* and other corespondents have also announced the fact. It is time therefore, for Col. Maunsell to speak up on such an outrageous war, and silence at such an epoch is a crime; every man woman and child in Buenos Ayres unites with us in crying out against so barbarous a campaign.

We received advices yesterday from San Clemente, Azul, and regret to learn that among the tame Indians thereabouts the cholera is making fearful ravages. On the estancias however there is no sickness. The camps are in splendid condition. One sale of cows, 'al corte,' 1200, at $87 m|c.—very cheap.

We greet the distinguished Spanish Minister, Mr. Charles Cruise, who is at present amongst us. This gentleman has been for many years accredited to the Plate, where he is deservedly esteemed by all. During the present banqueting week he has partaken of the splendid hospitalities to his distinguished countryman with whom he returns shortly to Montevideo.

Our racing correspondent has sent us the full account of the Gualeguaychu races, which proved a most signal success. Owing to press of copy we are obliged to hold the paper over until our next.

The French packet leaves on Tuesday, on which morning our packet edition will appear. We believe she takes few passengers; the Savoye which sailed on the 1st. took nearly all the French passengers: this Mediterranean line is paying well.

Up to the present the Provincial Government has paid away nearly five millions and a half for cholera bills; such a stupendous outlay attracts attention, and yet there are still bills unpaid. How much better had this amount been spent a few years previously in making sewerage and water supply for this unfortunate city.

Gottschalk is starring it in Rosario, and creating quite a 'furore' among the Santa Fesinas, who seem loth to part with him. He informs us, however, that he will, without fail, be here on Wednesday next to make the necessary preparations for the concert, which he has so benevolently volunteered to give in aid of the funds the British Hospital, in the Coliseum, on Saturday, 16th inst. We understand that there is already a great rush for tickets, and people who are wise should lose no time in securing their places, and seize the rare opportunity of not only enjoying so uncommon a musical treat as is offered to them on that night, but contribute at the same time their mite towards the alleviation of suffering humanity. Of course, Gottschalk is the 'bonne bouche' of the evening's fare, but scarcely less attractive will be the sweet music warbled from the coral lips of an accompished lady vocalist, which we are able to announce will charm our ears on that occasion, and the brilliant humor of our gifted amateur friend, Mr. Phillips, who will give to the evening's amusement an originality which will not be one of its least merits.

We have read with great pleasure a most flattering article in the *Republica* relative to Dr. Alston, who has just passed that severe ordeal before the Buenos Ayres medical board. In a most brilliant manner. Dr. Alston has not been long amongst us, but as he has spent some years in Brazil he was easily enabled to master sufficient Spanish for his examination; the want of fluency in the language being generally the great drawback to foreign medical aspirants. We do not know if Dr. Alston is, as the *Republica* says a second Hippocrates, but the probability is, he knows a great deal more than the ancient worthy, and will at least be one more trained medical man added to the respectable foreign list in Buenos Ayres. Dr. Alston has fixed his quarters at 141 Parque.

The *Pungolo* is the title of an Italian evening paper which is about to appear in this city, under the direction of M. F. Codecasa. We have been favored with the prospectus, in which Mr. Codecasa very justly remarks that the successful career of the foreign newspapers in Buenos Ayres have lead him to hope that as among the foreign community here the Italian element is greater than that of all other foreign nationalities put together an Italian paper might justly expect to find support and acceptation. We for our part cordially greet our new colleague, and will be most happy to see his expectations fully realised. The *Pungolo* is to be a politico-commercial, literary, and artistic paper. Subscription, $25 per month; and $1 each separate number.

The festivities at Concepcion del Uruguay, on the occasion of the reception of Gen. Urquiza of the Governorship of the Province, extended over several days, and were numerously

nd brilliantly attended. A small silver medal, about the size of a shilling, engraved for the occasion by the well-known Cataldi, was profusely distributed among all those who were present. The medal has on one side the portrait of General Urquiza, with the following inscription round it:—"J. J. Urquiza, 1° Presidente de la Republica, Fundador de la Constitucion;" and on the obverse the arms of the Province of Entre Rios. The engraving of the medal is beautifully executed.

THE WAR IN THE NORTH.

LATEST AND IMPORTANT NEWS.

Curupaiti, May 4, 1868.

The expedition that was intended to operate in the Chaco divided into two columns, one above and the other below Humaitá, under the orders of General Rivas, has been entirely successful, according to the intelligence I receive at this moment from the opposite shore, through Major Ramos.

The two columns effected their junction without any accident. One of the columns took possession of Timbo, whilst the other proceeded to break the chain, which would have impeded the passage of the steamers when the river falls. This operation was successfully effected by cutting a wire which kept the chain fixed to land.

It seems the Legion Militar fell into an ambush, and lost several of its men.

Our forces are preparing to operate in the Chaco, and for this purpose several heavy pieces of ordnance are going to be conveyed across.—*Tribuna.*

IMPORTANT FROM THE INTERIOR.

REVOLUTION IN TUCUMAN.

TABOADA INVADING RIOJA.

ARREDONDO MARCHING AGAINST TABOADA.

We take the following from a letter addressed to our colleague the *Tribuna*, published in its yesterday's number:—

Rosario, May 7, 1868.

After closing my correspondence I am informed that a chasque has just arrived from the Interior, with the following highly important news.

Father Campos made a revolution in Tucuman, and remained master of the situation. A new government has been installed; the Liberal prisoners liberated; and Governor Luna and his Ministers obliged to fly.

General Taboada having concluded his mission in Catamarca threw himself upon Rioja, and overturned the government set up by Lafuente.

The latter despatched a chasque to Cordova, asking for the 7th of the Line, at the head of which it was said that Arredondo would march.

In Catamarca, it appears, there were also symptoms of revolutionary movements.

IMPORTANT FROM PAYSANDU.

Paysandú, May 7, 1868.

To the Editors of the *Standard*.

Gentlemen—

The invasion of Aparicio some months back, the death of Flores, the mooted invasion from Entre Rios, and now the hostile attitude of that 'nice party' from Mercedes, Don Maximo Perez, have kept us in hot water all this year. Peones called up for military service, and a most lamentable complaint from estancieros and saladeristas all over the department.

This occurs just about the time that saladeros have been able to kill, the cholera having prevented them during December and January.

It is expected that all the Uruguay saladeros will make very good profits this year, notwithstanding, as cattle are in prime condition, prices moderate and stock very limited.

There is no alarm here about Maximo Perez's disobedience. Many of the forces from this place have gone to quell him, and he will be quelled. His insurrection is merely local and personal, *i.e.*, an attempt to hold on for ever and ever to the post of Gefe Politico de Mercedes, and rule patriarchally, *a la mode du pays*, that extra salubrious soil.

A few days ago we had the pleasure to see some familiar faces from Buenos Ayres, Mr. Haycroft, Capt. Curlewis, Mr. Plowes, Dr. Gibbings, Mr. M'Lean, Rev. J. Shiells, and others who can now give you a good account of Paysandu's ins-and-outs, and our proceedings here.

Trade in town very bad; there have been about a dozen failures, some of them for heavy amounts. The real cause has been over-trading, but it is expected that this sweeping crisis of which Montevideo "registros" have been the chief victims will much improve and give a better tone to business for the future.

The *Standard* comes with great regularity by post, for which we must only thank the activity of the editors.

The colony of Hampshire flax-growers brought out by Mr. Hughes is thriving on the banks of the Celestino, busy making their houses, stores, &c. Only fancy that some of them have been bank clerks in England. Flax grown under such auspices should prove financial.

I am reminded in writing about the flax-growing colony that the municipality were (I have it from the best authority) have two leagues of fine, well-watered land, one league distant from the town (9,000 inhabitants), which they are very earnestly desirous of colonising. The land is very fertile, abounds in stone for building purposes, and is close to a large, wealthy town, which has to order its maiz, butter, cheese, eggs, poultry, wheat, and other farm products from Entre Rios! Surely there must be somebody in Buenos Ayres with a sufficiently critical and judicious eye to money-making to perceive the advantages of such a business. The municipality will take anything but Italians, for the latter are at a discount. The passage up from Buenos Ayres is only twelve pats., and I will introduce personally, to the proper persons, any *bona fide* interested party in the business, on his producing a letter of introduction from your good selves.

The street pavement is going on regularly. We have now a handsome, well-paved central street, very shortly to be followed by others, and several fine buildings in construction, especially the new bank building of Messrs. Mauá & Co., which, when finished, will be a really fine and ornamental construction of two stories high, adapted for the increasing business of the place.

Our new local steamboat company is going ahead very fairly. Shares, 15 at 5,000 dollars, dividend for the first quarter declared at 400 dollars per share, and a small surplus over to profit and loss account. The *Standard* agent, Don Miguel Horta, is president of the company, and there is a project already of bringing another steamer from England, as the one on the route has paid so well heretofore.

The Tacuarembo Mail Coach Company burst. Dividend to shareholders something under 50 per cent. Cuñupiru gold diggers could not afford to pay the coach. Anyhow, this was a Paysandu step in the right direction, and failed, not through want of judgment, but because started before time. Cuñupiru is bound to get on, first by its gold, second by its immense contraband into Brazil; the latter is said by intelligent parties to be a better paying spec than the first.

Old Mundell is in good health and spirits. Pity we can't get him to be Gefe, owing to some blackguards all-powerful in Montevideo. In lieu thereof we have Don Manuel Pacheco y Obes, a somebody next of kin to your Gelly y Obes, who is the nominal "gebe" of Paysandu. Bad health and weak digestion keep him three-fourths of his time consulting the doctor or taking the doctor's villainous compounds, and the department goes along smoothly without a visible head.

Yours very truly,

MERCATOR.

THE DANDIES' FETE.

While treating of this subject we must not forget (says Mr. Duncombe) the entertainments occasionally got up by members of the 'beau monde.' Among the most successful was the one jointly given at Boyle Farm, on the banks of the Thames, then Lady de Ros's. The expenses were jointly defrayed by a subscription of £500 each from Lords Alvanley, Castlereagh, Chesterfield, Robert Grosvenor, and Henry de Ros; and great taste was displayed in the arrangements. Pavilions on the bank of the river; a large dinner-tent on the lawn capable of holding four hundred and fifty; and a select table for fifty laid in the conservatory. Gondolas floated on the water, containing the best singers of the Italian Opera; and in a boat Vestris and Fanny Ayton, the one singing Italian, the other English. There were illuminations throughout the ornamental grounds, and character quadrilles were danced by the beauties of the season. This was long remembered as the Dandies' Fete. It was in every way a great success. Of those who so liberally got up the entertainment only one survives, and he can scarcely be said to appreciate his existence.

NORTHERN RAILWAY.

STEAM TRAFFIC AT THE TIGRE.

Tigre, May 9, 1868.

To the Editors of the *Standard*.

Gentlemen,—

In your columns of this date you remark "that the peones of the railway no longer put the luggage on board, and this extra expense comes very heavy on the poor passengers." As this belongs to my department, I beg to state that such is not the case, as the luggage is taken from train to steamer, and *vice versa*, without charge.

—Yours truly,

JAMES HORROCKS.

STEAMERS ESTRALLA AND LUJAN.

Buenos Ayres May 9th 1868.

To the Editors of the *Standard*,

Gentlemen,

I will feel much obliged to you if you correct the statement in your to-day's paper, wherein you state that the steamer Estrella arrived at 12 o'clock, I beg to state that she arrived at a quarter past two, and the passengers with the last train at night.

The Lujan arrived at twenty minutes past nine a.m. and not in the afternoon as you insert in your paper.

Yours respectfully,

A LOVER OF THE TRUTH.

LETTER

At thi Office for Mr. James Pearce.

ON 'CHANGE.

May 9, 1868.

Ounces,	400
Sovereigns,	122½
Patacons,	25
National Bonds	44½

The Bond market shook to-day, owing to the news from Montevideo. Bonds opened at 45, and sold down to 44½. The cash sales amounted to 19,000 on time; only 100,000 sold for the end of May, at 45½.

The advices from Montevideo, respecting the vote of the Senate, and also of the Deputies, on the 'forced currency bill,' caused a marked impression on our market. Some of the banks here, and private bankers, and even merchants, shipped gold this afternoon to Montevideo. Ounces were sold to-day on 'Change at a premium of 12 rls., and all that were offered at this price were bought up. It is generally believed that the banks now must pay up or liquidate, but parties of every political shade view with distrust the attitude of the market, since it is hinted that the views of the Montevidean Government are to force matters to extremities, and then to start a national bank, with an authorised emission. It is impossible to discern the real and true state of things, owing to the political and financial mist which hangs over that market. The Baron Maua has presented some sound, practical views to the Government, but the paper has been laid aside, as the President seems resolved, no matter what the consequence, that the 'forced currency bill' shall not be extended. Gold, however, has not run up so much in Montevideo as to inspire a belief that the banks are really buying; on the contrary, gold sold up to 18 per cent. premium, and subsequently fell off to 15, last quotation.

The Kepler advices from Europe reach to the 9th, being the Arno's dates anticipated. Salted hides 7d, which will give splendid profits on all cargoes on the way and contracted for. Tallow also up, 46s. 6d.; wool in good demand, Cordova and Santiago held up.

Exchange in Rio, 18; sovereigns, 14.600. Cotton—Active demand.

Dry hides in United States firm.

Exchange went up slightly to-day. Bills passed at 49¼ and 49⅜. Money in active demand, particularly gold. Collections tolerable.

Chilian flour—A cargo to arrive sold at 9¾ patacons, four months.

Charters by Woodgate, Brothers:—

Italian barque Erminia Foscolo, for Antwerp, salted hides 15s, tallow 30s, bales 20s and 5 per cent.

British barque Orkney Lass, River Uruguay, bone ash and bones, 25s and 5 per cent.

British schooner Mary James, ditto, salted hides, 37s 6d and 5 per cent.

National barque Carlo S., for Antwerp, tallow, 30s and 5 per cent.

Weekly review from our special reporter in the South Plaza:—

This week has been important, owing to the rise of dry hides, and the valuable sales of this important produce.

Wool—Sold from 49 ar. up to 76, according to class and condition, more or less carretilla. Yearling 40, 50 and 60, fine. No deposits. Stock outside 300,000. Fine classes scarce.

Wheat—140, 180, 222, 250 and 270 superior barleta.

Maiz—118 and 130 fan.

Flour—At all the mills 33, 40 and 46 superior

REMATE.

POR FRANCISCO DE LA SERNA—¡Atencion artesanos y fabricantes opulentos!

38 lotes de terreno de inmenso porvenir, de 12 y 13 vs. de frente al Norte en la calle de Rivadavia, por 100 vs. de fondo al Sud. En tres manzanas con seis esquinas.

Calle empedrada de Rivadavia desde la boca calle de la estacion Almagro para el 11 de Setiembre.

El Domingo 10 de Mayo a las 11 en punto de la mañana, se rematarán los terrenos que dejamos designados, la mitad del importe al contado y la otra mitad a 6 meses de plázo y mejor oferta.

Si la localidad constituye el verdadero merito de esta clase de propiedades, como es inegable, esta por las importantes ventajas que encierra, ya sea considerada por el valor creciente que le transmite la poblacion de la capital que se estiende rapidamente por esa calle empedrada, que es la entrada principal de la campaña; por su inmediacion al gran mercado de frutos del 11 de Sitiembre, por la facilidad y baratura para transportarse al centro en los omnibus o por el treway que muy pronto se establecerá en esa direccion, y por las condiciones ingiénicas en que la coloca la elevacion de aquellos terrenos: sin exageracion podemos decir, que es la de mejor porvenir que se puede elegir para la construccion de casas espaciosas para familias, CON 100 VARAS DE FONDO, o para aquella clase de fábricas, barras y todo genero de establecimientos industriales etc.

Los Sres. licitadores pueden ocurrir por planos a casa del Rematador, Calle de Belgrano núm. 218.

El remate puntualmente se verificará sobre los mismos terrenos, el dia y hora que queda anunciado. 29 xp m5

POR FEDERICO J. MIRO—Importante—De la linda casa moderna Calle Buen Orden No. 417 a una cuadra de la plaza de la Concepcion, calle empedrada; mide 11 varas de frente por 44 de fondo, con 5 grandes habitaciones, cocina, pozo etc. Por cuenta de una testamentaria con renuncia a la ley de retracto.

El Jueves 14 de Mayo a las 2 en punto de la tarde se ha de vender en público remate a la mejor oferta la casa bien edificada con buenos materiales y maderas fuertes, tres grandes patios, calle comercial y bien situada, la venta por obligacion, titulos de lo mejor; mas datos Maipú 107.

POR EL MISMO—Buena oportunidad—De la hermosa casa quinta haciendo esquina calle de Santa Fé No. 413 donde estará la bandera frente a las quintas del Dr. Laitte, Carrasco, Dubley, Menda y otros, con 5 hermosas piezas de material por cuenta de los herederos de una testamentaria.

El Domingo 17 de Mayo a las 2en punto de la tarde se ha de vender en público remate la casa quinta mensionada que mide 35 varas de frente por 130 de fondo, con 5 piezas material, árboles frutales con mas un martillo de 35 por 65 a favor, mas datos al martillero Maipú 107.

POR EL MISMO—Estrajudicial y notable—De la gran finca Calle Florida No. 197 entre Corrientes y Parque frente a las fincas de los Sres. Senillosa y Alsaga la mejor calle que tiene la Capital de la República y de mas porvenir; por cuenta de una testamentaria con renuncia de retracto.

El Jueves 21 de Mayo a las 3 en punto de la tarde se ha de vender en público remate a la mejor oferta y sin restriccion alguna la mensionada casa que mide 14 varas y pico de frente por 55 de fondo, con prevencion que en el fondo y al costado Sud hay un gran martillo en favor de 10 vs de frente por 29 de fondo, que pasa por los fondos de 4 casas vecinas, teniendo en el fondo un frente de 43 y pico de varas. El edificio tiene mas o menos como 25 piezas de material, 4 patios, deposito, cocina, maderas fuertes, pozo etc. Creo escusado recomendar la brillante posicion de esta finca y mucho mas el martillo que los vecinos quieren comprar y lo pagarán. Titulos de lo mejor, alerta pues no olvidar la hora. Mas datos Maipú 107

POR EL MISMO—Estra-judicial—Para los hacendados—Del magnifico establecimiento de campo situado en el Partido de las Heras 'Cañada de los Pozos', contiguo al gran establecimiento de los Sres. Plomer Zamudio, Villamayor y Aguirre; por cuenta de una testamentaria con renuncia a la ley de retracto.

El Jueves 28 de Mayo a las 3 en punto de la tarde se ha de vender en público remate, quemado quizá y a la mejor oferta el mencionado establecimiento situado en dicho Partido y a solo 4 leguas de Lobos, 5 de Navarro, 3 de Cañuelas, 6 de Moreno y 7 de Moron. Lo bien situado de este campo y lo imejorable en sus ricos pastos, cuya area se compone de 6,000 varas de frente por 3,923 id de fondo, casi una suerte de estancia, con 2 poblaciones propiedad de la testamentaria, siendo las demas de los arrendatarios los que pagan 60 mil pesos anuales, ademas se está jestionando un gran retazo de 600 vs. de frente por 600 de fondo contiguo que podrá tomar el comprador en proporcion al precio vendido, este campo fué conocido por de Almaras, la brillante posicion del establecimiento y cerca de la ciudad, el campo es todo de provecho imejorable para ovejas o para renta y como la venta tiene que realizarse a todo evento es una linda oportunidad para comprar bueno y barato, mas pormenores Maipú 107 donde efectuará el remate a la hora que está señalada.

THE ACME OF MEDICAL SCIENCE
IS ACHIEVED IN THE WONDERFUL DISCOVERY OF NEW MEDICAL PRINCIPLES IN
DR. RADWAY'S
PERFECT PURGATIVE PILLS
COATED WITH SWEET GUM.

1st Principle—A vegetable substitute for Calomel or Mercury is secured.

2d. A cathartic that cleanses the alimentary Canal and its neighboring Viscera as thoroughly as Lobelia does the stomach.

3d. Functional Harmony is secured to the secreting vessels of all the organs and glands in the system.

4th. Purification and equalization of the circulation of the blood.

5th. The properties of these Pills communicate a nutritious principle to the blood and reparative secretion.s

6th. A great want is supplied in their soothing, healing and expulsive power in cases of intestinal ulceration, as in Eruptive Fovers, where a cure depends upon free evacuations.

7th. The aged and persons suffering from paralysis of the bowels, by the use of one pill per day, secures regularity.

Persons suffering with any disturbance of the secretary organs, or that have difficulty in discharging the contents of the bowels, or that are in the habit of taking Pills or opening medicines, should try one box of these truly excellent Pills. The happiness of their effects on the system, and the satisfactory evidence one box will give you of their wonderful curative powers, will convince you that your faith and trust in them will become firmly established.

RADWAY'S
REGULATING PILLS.

A newly discovered principle in vegetable medication is securred in Radway's Regulating Pill, that places them far in advance of all other Purgative or Cathartic, Aparient or Sedative, and Anti-Bilious Medicine. They are the only vegetable substitute for Calomel or mercury known; the only Medicine that, during their process of purging, imparts nutriment to the debilitated system, and strengh, vigor and purity to the blood, and impaired secretions; the only purgative that will cleanse the Alimentary Canal and obstructed intestine as quickly and thoroughly, without weakening or neauseating the patient, as Lobelia (the most active and thorough emetic of the herbist) will the stomach, and the only purgative at present known safe to administer in case of Small Pox, Yellow Fever, Erysipelas, and other Malignant Fevers, that inflame and ulcerate the mucuous membranes of the Bowels, Stomach, &c.

THE PROPERTIES OF
DR. RADWAY'S PILLS.

They equalize the circulation, Purify the Blood, and Purge Corrupt and Acrimonious Humors, and retained deposits from the system in six hours.

AS A CATHARTIC, the increase, when suspended, the peroitaltic movement of the bowels, and promote a quick evacuation of its contents. Their influence is extended throughout the system, purging the retained deposits in the stomach, into the duodenum, stimulating the secretory, ducts of the pancreas and liver, in the promotion and increase of the flow of bile and pancreatic fluids.

PURGATIVES of common aloes exert their action on the colon and rectum by irritation of the mucuos membrane, without influencing the liver or its secretions. Such cathartics are unsafe in pills for geaeral use. The common Cathartic Pills, that induce drastic liquid discharges, should never be given in cases of inflammation, or when there is ulceration of the intestinal canal.

THE APERIENT and mild LAXITIVE properties of RADWAY'S PILLS are the best safeguard in these disorders, and in all cases of eruptions and malignant fevers their balsamic, healing and sothing properties protect the coats of the alimentary passage against the irritant and acrid humors of the fauces.

THE NUTRITIOUS AND TONIC properties of these Pills are of great service in depleting fevers and uterine discharges, likewise as a dinner pill, to increase the appetite and promote digestion.

THEIR SEDATIVE properties allay pain in the nervous system, stomach and bowels, either from inflamation, colic, flatulence, wind, cramps, &c.

THEIR COUNTER IRRITANT influence extends threughout the system where there is inflamatiou, congestion or irritation, stimulating the blood and nervous fluids in the congested vessels, and equalizing its circulation. The principle of Counter irritations is generally applied to external remedies. Its application, internally, in the form of a purgative medicine, exemplified in Radway's Pills, has proved a wonderful curative principle, readily withdrawing from the blood and fluids their acrid and irritating humors.

AS DIAPHORETICS OR SUDORIFICS they stimulate the secretions of the skin, induce exhalation of obstructed perspiration.

THEIR DIURETIC properties act on the kidneys, correcting and regulating the flow of urine.

THEIR ANTI-BILIOUS properties stimulate the liver in the secretion of bile, and its discharge thorogh the biliary ducts. In all cases of Headache, Jaundice, Bilious Attacks, Saffrom-colored Skins, Impaired Digestion, caused by the overflow of bile and its mixing with the blood, thete pills, in doses four to six, will quickly regulate the action of the liver and free the patiedt from these difficulties. Ona or two of Radway's Pills taken daily, by those subject to bilious pains and torpidity of the liver, will keep the system regular and insure healthy digestion.

In case where there is severe inflamation, paralysis of the bewels, and a speedy discharge of their contents required, grind six of the pills to a powder and take in some preserves or water. In half an hour the pills, given in this way, will generally operate. The dose can be repeated, if necessary, in two hours. We have known the pills, given in this form, to opon the bowels ween Croton Oil. Elaterium, Podophyllum 'Mandrake' have failed. It is seldon that a second dose will be required in these cases of Intestinal Obstructions.

SAVINGS BANK.

BANK MAUA AND CO.

101--Cangallo--103.

BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauà & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauà & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.

The Bank of Mauà & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauà & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P.P. MAUA & Co.,
M. A. DE FREITAS AMORIM.

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p.%) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishe can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book, it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

IMPERIAL PETROLEUM,
IN PATENT TIN CANS.
BRILLIANCY, ECONOMY, SAFETY!

The Undersigned beg to inform the Public that they have received direct from the Proprietors, Messrs. LANMAN & KEMP, NEW YORK, a shipment of the above Celebrated Petroleum Oil, which has established for itself a reputation for excellence surpassing all other Petroleums. The following are some of the qualities possessed by it:—

1st. By a great improvement in Refining, it is freed from the Gaseous Naptha, and will, therefore, stand a higher degree of heat than other Petroleums before Igniting, thus making it much safer; in fact, almost

NON-EXPLOSIVE!

2nd. It is pure white in colour, has scarcely any smell, and is clean and pleasant to handle.

3rd. It has a much greater density or heaviness of body than ordinary Petroleum—a large part of which latter passes off in Gas,—the Imperial Petroleum being Pure Oil will, therefore, with rare exception,

BURN 25 PER CENT. LONGER!

than other Petroleums

4th. The flame from the Imperial Petroleum is a pure white, while nearly all other Petroleums give a yellow opaque flame. On this account, two Lamps burning the Imperial Petroleum will give as much Light as THREE Lamps burning ordinary Petroleum.

5th. It burns clear and steady without flickering, which is a great relief and saving to the eyesight.

6th. It does not Crust in the Wick, and, therefore, requires Trimming but seldom.

7th. The Imperial Petroleum is shipped in Patent Tin Cans, not liable to leak, thus avoiding the loss so often entailed upon the buyer, and being from one vein of Oil, it is always uniform in colour and qualities.

We respectfully ask the attention of Families, Storekeepers, and those who have in charge the Lighting of Schools, Churches, Public Halls, and Street Lamps to this very superior Oil, which, from its SAFETY, ECONOMY, and BRILLIANCY, they will find admirably suited for their various purposes.

THE ACME OF MEDICAL SCIENCE
IS ACHIEVED IN THE WONDERFUL DISCOVERY OF NEW MEDICAL PRINCIPLES IN
DR. RADWAY'S
PERFECT PURGATIVE PILLS
COATED WITH SWEET GUM.

1st Principle—A vegetable substitute for Calomel or Mercury is secured.
2d. A cathartic that cleanses the alimentary Canal and its neighboring Viscera as thoroughly as Lobelia does the stomach.
3d. Functional Harmony is secured to the secreting vessels of all the organs and glands in the system.
4th. Purification and equalization of the circulation of the blood.
5th. The properties of these Pills communicate a nutritious principle to the blood and reparative secretion.s
6th. A great want is supplied in their soothing, healing and expulsive power in cases of intestinal ulceration, as in Eruptive Fevers, where a cure depends upon free evacuations.
7th. The aged and persons suffering from paralysis of the bowels, by the use of one pill per day, secures regularity.
Persons suffering with any disturbance of the secretary organs, or that have difficulty in discharging the contents of the bowels, or that are in the habit of taking Pills or opening medicines, should try one box of these truly excellent Pills. The happiness of their effects on the system, and the satisfactory evidence one box will give you of their wonderful curative powers, will convince you that your faith and trust in them will become firmly established.

RADWAY'S
REGULATING PILLS.

A newly discovered principle in vegetable medication is securred in Radway's Regulating Pill, that places them far in advance of all other Purgative or Cathartic, Aparient or Sedative, and Anti-Bilious Medicine. They are the only vegetable substitute for Calomel or mereury known; the only Medicine that, during their process of purging, imparts nutriment to the debilitated system, and strengh, vigor and purity to the blood, and impaired secretions; the only purgative that will cleanse the Alimentary Canal and obstructed intestine as quickly and thoroughly, without weakening or neauseating the patient, as Lobelia (the most active and thorough emetic of the herbist) will the stomach, and the only purgative at present known safe to administer in case of Small Pox, Yellow Fever, Erysipelas, and other Malignant Fevers, that inflame and ulcerate the mucuous membranes of the Bowels, Stomach, &c.

THE PROPERTIES OF
DR. RADWAY'S PILLS.

They equalize the circulation, Purify the Blood, and Purge Corrupt and Acrimonious Humors, and retained deposits from the system in six hours.
AS A CATHARTIC, the increase, when suspended, the peroitaltic movement of the bowels, and promote a quick evacuation of its contents. Their influence is extended throughout the system, purging the retained deposits in the stomach, into the duodenum, stimulating the secretory, ducts of the pancreas and liver, in the promotion and increase of the flow of bile and pancreatic fluids.
PURGATIVES of common alces exert their action on the colon and rectum by irritation of the mucuos membrane, without influencing the liver or its secretions. Such cathartics are unsafe in pills for geaeral use. The common Cathartic Pills, that induce drastic liquid discharges, should never be given in cases of inflammation, or when there is ulceration of the intestinal canal.
THE APERIENT and mild LAXITIVE properties of RADWAY'S PILLS are the best safeguard in these disorders, and in all cases of eruptions and malignant fevers their balsamic, healing and sothing properties protect the coats of the alimentary passage against the irritant and acrid humors of the fauces.
THE NUTRITIOUS AND TONIC properties of these Pills are of great service in depleting fevers and uterine discharges, likewise as a dinner pill, to increase the appetite and promote digestion.
THEIR SEDATIVE properties allay pain in the nervous system, stomach and bowels, either from inflamation, colic, flatulence, wind, cramps, &c.
THEIR COUNTER IRRITANT influence extends throughout the system where there is inflamatiou, congestion or irritation, stimulating the blood and nervous fluids in the congested vessels, and equalizing its circulation. The principle of Counter irritations is generally applied to external remedies. Its application, internally, in the form of a purgative medicine, exemplified in Radway's Pills, has proved a wonderful curative principle, readily withdrawing from the blood and fluids their acrid and irritating humors.
AS DIAPHORETICS OR SUDORIFICS they stimulate the secretions of the skin, induce exhalation of obstructed perspiration.
THEIR DIURETIC properties act on the kidneys, correcting and regulating the flow of urine.
THEIR ANTI-BILIOUS properties stimulate the liver in the secretion of bile, and its discharge thorogh the biliary ducts. In all cases of Headache, Jaundice, Bilious Attacks, Saffrom-colored Sking, Impaired Digestion, caused by the overflow of bile and its mixing with the blood, thete pills, in doses four to six, will quickly regulate the action of the liver and free the patiedt from these difficulties. Ona or two of Radway's Pills taken daily, by those subject to bilious pains and torpidity of the liver, will keep the system regular and insure healthy digestion.
In case where there is sovere inflamation, paralyeis of the bowels, and a speedy discharge of their contents required, grind six of the pills to a powder and take in soma preserves or water. In half an hour the pills, given in this way, will generally operate. The dose can be repeated, if necessary, in two hours. We have known the pills, given in this form, to opon the bowels ween Croton Oil. Elaterium, Podophyllum 'Mandrake' have failed. It is seldon that a second dose will be required in these cases of Intestinal Obstructions.

SAVINGS BANK.

BANK MAUA AND CO.

101--Cangallo--103.

BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.
The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.
The sums deposited in that very important institution are daily increasing, and already reach a very large amount.
These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.
The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.
The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.
The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.
The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.
The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.
Buenos Ayres, 2nd January, 1867.
P.P. MAUA & Co.,
M. A. DE FREITAS AMORIM.

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.
Second—The interest allowed is six per cent. (6 p.%) per annum, which is liquidated every six months.
Third—The depositors can at any time retire the whole or part of the money deposited.
Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishe can open an account current, according to the rules established by the Bank.
Fifth—In case the depositor loses his pass book, it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

IMPERIAL PETROLEUM,
IN PATENT TIN CANS.
BRILLIANCY, ECONOMY, SAFETY!

The Undersigned beg to inform the Public that they have received direct from the Proprietors, Messrs. LANMAN & KEMP, NEW YORK, a shipment of the above Celebrated Petroleum Oil, which has established for itself a reputation for excellence surpassing all other Petroleums. The following are some of the qualities possessed by it:—

1st. By a great improvement in Refining, it is freed from the Gaseous Naptha, and will, therefore, stand a higher degree of heat than other Petroleums before Igniting, thus making it much safer; in fact, almost

NON-EXPLOSIVE!

2nd. It is pure white in colour, has scarcely any smell, and is clear and pleasant to handle.
3rd. It has a much greater density or heavinoss of body than ordinary Petroleum—a large part of which latter passes off in Gas,—the Imperial Petroleum being Pure Oil will, therefore, with rare exception,

BURN 25 PER CENT. LONGER!

than other Petroleums
4th. The flame from the Imperial Petroleum is a pure white, while nearly all other Petroleums give a yellow opaque flame. On this account, two Lamps burning the Imperial Petroleum will give as much Light as THREE Lamps burning ordinary Petroleum.
5th. It burns clear and steady without flickering, which is a great relief and saving to the eyesight.
6th. It does not Crust in the Wick, and, therefore, requires Trimming but seldom.
7th. The Imperial Petroleum is shipped in Patent Tin Cans, not liable to leak, thus avoiding the loss so often entailed upon the buyer, and being from one vein of Oil, it is always uniform in colour and qualities.
We respectfully ask the attention of Families, Storekeepers, and those who have in charge the Lighting of Schools, Churches, Public Halls, and Street Lamps to this very superior Oil, which, from its SAFETY, ECONOMY, and BRILLIANCY, they will find admirably suited for their various purposes.

NO MORE GRAY HAIR!
NO MORE BALD HEADS!!
NO MORE DANDRUFF!!!

ORIENTAL TONIC
FOR THE
HAIR
It makes the Hair Soft and Glossy.
It makes it grow Thick and Heavy.
It removes every vestige of Dandruff.
It keeps the Hair in any Shape.
It prevents premature Baldness.
It makes the Head Cool and Pleasant.
It stops the Hair from falling out.
It imparts new strength and vigor to the Scalp.
It is the only perfect Hair-dressing.
It is the only Hair-dressing suitable for the
BEARD AND WHISKERS,
Imparting to them that soft silky appearance and feeling so much admired by Gentlemen.
